

# Wharf Stream Way

A fascinating route with a rich history, which, apart from the Wharf Stream crossing, is largely invisible. Unique artworks, designed by local residents, have been used to bring the history of the route to life. Why not come and see for yourself...

**A** START at the edge of Hazeldene Close, by Jane Tomlinson's interpretation panel (A). Carefully cross the main road (B4449.)

**B** Follow the footpath alongside the allotments, past the waymarker designed by Eynsham Day Centre and Alice Walker (B). Turn right, through the field entrance and follow the path beside the hedgerow. Turn left and follow Mead Lane for approx. 200 metres.

**C** Cross the Wharf Stream via the footbridge. An information panel, designed by Lorna Marrison (C), gives some historical context of the area. Follow the footpath across the field towards the Thames Weir. Turn right and follow the river for 100 metres.

**D** On the main road (B4044) you will see the waymarker designed by Jane Tomlinson (D). Turn right here and follow the pavement to the Talbot pub and to return to Eynsham. Cross the Wharf Stream again and bear right. Following the footpath, walk diagonally across the field towards a gate.

\* Seating

**Access**  
There is no parking in the immediate area of the start of the Wharf Stream Way at Hazeldene Close. Please make use of car parks in the village centre from where it is a short walk to the start point at Hazeldene Close.  
There is a mobility gate at the start and no stiles along the route. It is flat but does tend to be uneven and can be muddy. The bridge at Wharf Stream crossing has a step.  
For more information call 01993 861080.
