6. Conclusion – Five Year Supply 7

1. Introduction

- 1.1 This paper sets out the Council's housing land supply position for the five year period **1st April 2018 to 31st March 2023**.
- 1.2 It replaces the Council's previous position statement dated May 2017 which covered the five-year period 1st April 2017 – 31st March 2022.

2. Background

- 2.1 National policy requires local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their identified housing requirement with an additional buffer of 5% to ensure choice and competition in the market for land.
- 2.2 A simple example is provided below.
- | | |
|---|----------------------------|
| • LPA annual housing requirement | 400 homes per year |
| • LPA 5-year housing requirement | 2,000 homes (i.e. 400 x 5) |
| • LPA 5-year requirement with 5% buffer | 2,100 (i.e. 2,000 + 5%) |
- 2.3 Alternatively, a 10% buffer can be applied where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year.
- 2.4 A 20% buffer is to be applied where there has been significant under-delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.
- 2.5 The West Oxfordshire Local Plan 2031 was adopted on 27 September 2018. Policy H2 confirms that the Council's housing land supply position is to be calculated on the basis of a phased housing requirement.
- 2.6 It also confirms that when assessing the 5-year housing land supply, the Council will apply the residual (Liverpool) approach whereby any previous under-supply (backlog) since the start of the plan period (2011) is spread over the remaining plan period to 2031 rather than having to be met in the next 5-years.
- 2.7 The Inspector's report into the Local Plan published on 24 August 2018 concluded that at the present time, there has been a persistent record of under-delivery of housing in the District and as such, a 20% buffer should be applied.

- 2.8 Notably, in a Written Ministerial Statement made on 12 September 2018¹, the Government confirmed that in Oxfordshire, a bespoke arrangement will be applied whereby the Oxfordshire local planning authorities are required to demonstrate a 3-year supply of deliverable housing land (with appropriate buffer) rather than the standard 5-year requirement.
- 2.9 This arrangement is intended to support the delivery of a new Joint Statutory Spatial Plan (JSSP) for Oxfordshire – a key element of the Oxfordshire Housing and Growth Deal. It will remain in place until the adoption of the JSSP in each area, provided the timescales agreed in the Housing and Growth Deal are adhered to.

3. The 5-Year Period

- 3.1 This position statement covers the 5-year period 1st April 2018 – 31st March 2023.
- 3.2 The information provided on existing planning commitments is dated as of 1st April 2018.
- 3.3 The information provided on past residential completions relates to the period 1st April 2011 – 31st March 2018.

4. The Housing Requirement

- 4.1 Local Plan Policy H2 – Delivery of New Homes sets out the phased housing requirement for West Oxfordshire in the period 2011 – 2031 including provision for Oxford City’s unmet housing need. The requirement is summarised in the table below.

Year	West Oxfordshire’s Needs	Oxford City’s needs	Combined Annual Requirement
2011 – 2017	550 per annum		550 per annum
2017 – 2018	550		550
2018 – 2019	550		550
2019 – 2020	550		550
2020 – 2021	550		550
2021 – 2022	525	275	800
2022 – 2023	525	275	800
2023 – 2024	700	275	975
2024 – 2025	850	275	1125
2025 – 2026	850	275	1125
2026 - 2027	850	275	1125

¹ <https://www.parliament.uk/business/publications/written-questions-answers-statements/written-statement/Lords/2018-09-12/HLWS924/>

2027 – 2028	850	275	1125
2028 – 2029	850	275	1125
2029 – 2030	850	275	1125
2030 - 2031	850	275	1125
Totals	13,200	2,750	15,950

4.2 As highlighted in green, the basic 5-year requirement in the period 2018 – 2023 is 3,250 dwellings however there is a need to take account of any past under-supply (backlog) in the period 2011 – 2018 as well as the appropriate buffer (20% at the present time).

4.3 Housing completions in the period 2011 – 2018 totalled 2,538 dwellings. As set out in the table above, the requirement over that period was 3,850 dwellings (i.e. 550 x 7) meaning a shortfall or backlog of 1,312 dwellings to be provided over the remaining period to 2031.

4.4 On a pro-rata basis this increases the basic five-year requirement in the period 2018 – 2023 to 3,755 dwellings. When the 20% buffer is applied, the total requirement in the 5-year period 2018 – 2023 becomes **4,506** dwellings (901 units per year) - see Table I below.

5. Anticipated Housing Supply

5.1 For ease of reference, anticipated housing land supply in the period 2018 – 2023 has been categorised into three broad categories as follows:

- Large existing commitments of 10 or more dwellings;
- Small existing commitments of less than 10 dwellings; and
- Local Plan Housing Allocations

5.2 Appendices 1 – 3 provide information on the Council’s anticipated housing supply in each of these three categories. The information is also summarised briefly below.

5.3 In addition, a windfall allowance of **140** dwellings in the period 2018 – 2023 has been included². This is a purposefully low assumption to avoid potential double counting with existing permissions over the same period.

Large Existing Commitments (10 or more dwellings).

5.4 This category includes all existing commitments of 10 or more dwellings. A planning ‘commitment’ is taken to mean that the site either has planning permission or has received a resolution to grant planning permission subject to the completion of a legal agreement.

5.5 Appendix 1 includes all large commitments of 10 or more dwellings as of 1st April 2018, together with relevant information on their status and anticipated delivery.

5.6 Total anticipated supply from this source in the period 2018 – 2023 is **4,271** dwellings.

Small Existing Commitments (less than 10 dwellings)

5.7 This category includes all existing commitments of less than 10 dwellings. A planning ‘commitment’ is taken to mean that the site either has planning permission or has received a resolution to grant planning permission subject to the completion of a legal agreement.

5.8 Appendix 2 provides further detail on each of these small committed sites.

5.9 The total number of dwellings committed through these small sites is 629. To ensure robustness a discount of 9.1% has been applied to those schemes which have not yet started (364 units in total) to take account of potential lapses. This is based on past trends.

5.10 Taking account of this discount, anticipated supply from small existing commitments of less than 10 dwellings in the period 2018 – 2023 is therefore **596** dwellings (i.e. 629 – 33).

² West Oxfordshire Local Plan 2031 assumes delivery of 991 units from windfall schemes in the period 2017 – 2031 (c. 70 per year). Delivery assumption of 140 units derived from final two years of 5-year period (i.e. 2 years x 70 units) to avoid double counting with existing commitments.

Local Plan Housing Allocations

- 5.11 The West Oxfordshire Local Plan 2031 was adopted on 27 September 2018 and includes a number of strategic and non-strategic housing site allocations.
- 5.12 The total number of allocated homes is 7,720 and in the 5-year period 2018 – 2023, the Council considers it reasonable to expect delivery of around **1,050** dwellings from these sites.
- 5.13 It should be noted that this figure excludes those Local Plan allocations which have secured a resolution to grant planning permission (which are already included in Appendix I – Large Existing Commitments) in order to avoid any double counting.

6. Conclusion – Five Year Supply

- 6.1 It is reasonable to expect delivery of the following in the period 2018 – 2023

Source	Number of dwellings 2018 – 2023
Large existing commitments of 10 or more units	4,271
Small existing commitments of less than 10 units	596
Local Plan allocations	1,050
Anticipated windfall	140
Total	6,057

- 6.2 As set out in Table 1 below, the overall requirement in the 5-year period 2018 – 2023 (including past backlog and a 20% buffer) is 4,506 dwellings (901 per year).
- 6.3 With a total anticipated supply of 6,057 dwellings in the period 2018 - 2023, the Council is able to demonstrate a **6.7 year** supply of deliverable housing sites (i.e. 6,057 / 901).
- 6.4 On the basis of the bespoke 3-year arrangement that currently exists in Oxfordshire, the Council is required to demonstrate a supply of 2,703 dwellings (i.e. 901 x 3) and thus with an anticipated supply of 6,057 dwellings comfortably exceeds this requirement.
- 6.5 The overall position is summarised in Table 1 overleaf.

I	Anticipated provision from unidentified windfall sites (2018 – 2023)	140	Local Plan assumes delivery of 991 units from windfall schemes in the period 2017 – 2031 (c. 70 per year). Delivery assumption of 140 units derived from final two years of current 5-year period (i.e. 2 years x 70 units) to avoid double counting with existing commitments.
J	Total deliverable dwellings	6,057	

³ Total completions for 2011 – 2018 have been 2,538 dwellings. The requirement over that period was 3,850 (550 x 7) therefore the past undersupply or ‘backlog’ is 1,312 (i.e. 3,850 – 2,538)
