82	Walterbush Road Ground, Chipping Norton. OX7 5DQ	4	Football	Sport Club	Disused site. Previously home to Chipping Norton Town FC; accommodated a single adult pitch but the Club had to relocate to Enstone Sports and Social Club after losing ownership of the site. The pitch has not been used or maintained since 2014.	The March 2024 Stage E Review decided that site should be retained and protected for the time being. This was reviewed again at the Steering Gp Strategy mtg in June 24 where it was noted that this site had not been used for many years, the land is overgrown and the PPS notes sufficient current and future adult pitch capacity in Chipping Norton. Therefore, it was decided that there was no longer a need to protect this site. However, should the site be released for development, the developer would need to provide either appropriate mitigating re-provision to a replacement site in order to address any shortfalls that may subsequently arise (such as replacing the sports pitch in an alternative location with ancillary provision), or a s106 financial contribution towards improvements and maintenances of other football pitches/other sporting grounds/clubs in the catchment area in order to benefit community sport.
