

Application for Designation of a Neighbourhood Area

1. Here is a plan of the Parish of Broadwell. The Broadwell Village Neighbourhood Forum will define a Neighbourhood Area which will comprise the whole Parish or a smaller area within the boundaries of the Parish of Broadwell.

2. The Parish Boundary is the obvious starting point for the work to realise the Broadwell Parish Neighbourhood Plan. The Neighbourhood Forum and the residents of Broadwell have already, in informal discussions, expressed a wish for the Neighbourhood Plan to consider a range of issues including employment, social infrastructure, local food, transport, renewable energy as well as housing. The Neighbourhood Area may be defined as a smaller area within the Parish boundary but that will not be known until work has taken place by the Neighbourhood Planning Group. This is the reason to start with the broader canvas of the whole parish as described on the plan.
3. The Broadwell Village Neighbourhood Forum is the relevant body for the making of this application for the designation of the Neighbourhood Area.
